

**PERTH AMBOY GATEWAY NEIGHBORHOOD AWARDED \$400,000
REVITALIZATION GRANT**

May 1, 2024 – Perth Amboy, NJ – The City of Perth Amboy is excited to announce that the Gateway Neighborhood will receive a significant boost in its revitalization efforts, thanks to a \$400,000 grant awarded through the New Jersey Neighborhood Revitalization Tax Credit (NRTC) Program. This grant, secured by the Perth Amboy Redevelopment Team for Neighborhood Enterprise and Revitalization (PARTNER), will play a vital role in advancing economic development, housing improvements, and community services for the area.

This funding represents a major milestone in our ongoing mission to enhance the quality of life for residents of the Gateway Neighborhood. We extend our deepest gratitude to the New Jersey Department of Community Affairs for this opportunity, as well as to our corporate partners, Peoples Security Bank and Trust Company and Horizon Healthcare Services, whose support is crucial to the success of this revitalization initiative.

"This grant is a win for the entire community. It underscores the importance of collaboration between local partners, the state, and private investors, and showcases what we can accomplish when we work together toward a shared vision," said Douglas Dzema, Executive Director of PARTNER.

With these resources, the revitalization efforts will focus on creating sustainable, long-term improvements that will transform the Gateway Neighborhood into a thriving, vibrant community. Projects will include economic growth initiatives, housing enhancements, and the expansion of essential community services.

Stay tuned for further updates as we begin implementing these exciting projects. Together, we are making the Gateway Neighborhood a place everyone can proudly call home.
